### III. Student Body & Placement

The school provides a small educational setting and utilizes an integrated curriculum with special focus on fundamentals. Enrichment and remediation are provided through class, small group and individualized activities/lessons.

The school is a good alternative for students who:

- Do better in smaller classes, or function more effectively in smaller educational settings
- Come from homes where parents are dissatisfied with traditional schools, and are seeking an alternative placement
- May not be reaching their full academic potential
- Are less willing or proficient at handling the "activities" or large groups of today's classes
